**Affiliations/Membership**
maaps, Children’s League of MA, Catholic Charities USA

**Programs and Services**
Saint Vincent’s provides In-Home Therapy and Therapeutic Mentoring through CBHI and utilizes a strengths-based, family-centered model of treatment that is consistent with the wrap-around model of care. All services are supervised by a licensed master’s level clinician. Staff delivers services to address specific treatment goals identified by the family and the larger Family Team. In-Home Therapy addresses the youth’s behavioral health needs and strengthens the family’s communication skills in order to sustain permanence and improve overall functioning. In-Home Therapy is provided by a master’s level clinician. In some cases a para-professional also provides Therapeutic Support and Training to assist the family in practicing and strengthening new skills within their home and/or other natural settings. Therapeutic Mentoring provides one-to-one coaching, training, and support by a highly trained para-professional to youth with significant behavioral health needs. Services address daily living and social/relationship skills within a variety of settings including home, foster home, school, day care setting, etc.

**Location and Facilities**
The program’s administrative offices are located on Saint Vincent’s main campus in Fall River; however, all services are delivered in the community and family home.

**History and Philosophy**
Founded in 1885, Saint Vincent’s provides a continuum of services, ranging from acute residential care to home-based treatment and support. Our programs are designed to assist each youth and family to recognize and build upon their strengths and resilience and to support family permanence. All of our programs provide family-centered, community-integrated, trauma-informed care focused on positive behavioral support and skill enhancement. Our services are highly individualized and are based upon each youth and family’s unique developmental, learning, and social/emotional strengths and needs.
