

ADVOCACY:

What is the MAAPS Action Network?

The Action Network is an online portal for the MAAPS special education community—member school staff, Boards of Directors, parents and families, friends and advocates—to help schools obtain the funding and support needed to provide an appropriate education and services for every child with a disability."

Why join the MAAPS Action Network?

By joining the Action Network, you'll be able to weigh-in on issues that matter to you and help strengthen awareness and relationships with our state and federal legislators! The success of MAAPS in advocating for special education funding and issues is only made possible by a team effort and we're relying on you to be part of that team.

How to join the MAAPS Action Network?

Sign-up is easy. Simply visit maaps.org and click on "JOIN THE ACTION NETWORK"

MAAPS has been an invaluable support for our school this year, and their advocacy has helped us deliver consistent and quality educational services to some of the state's most high-need students despite the unprecedented challenges of the current moment.
